

## SNAP

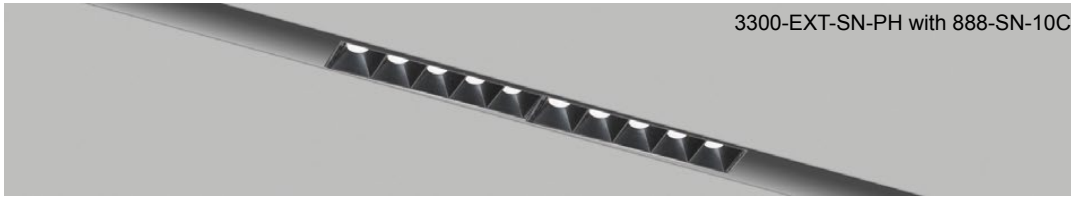

Flexible modular design with Bluetooth Technology for smartphone control of **SNAP** Lighting systems

flawless.

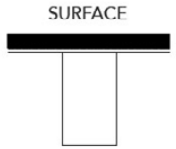

# 3300-EXT-SN Surface Housing and Plaster Housing

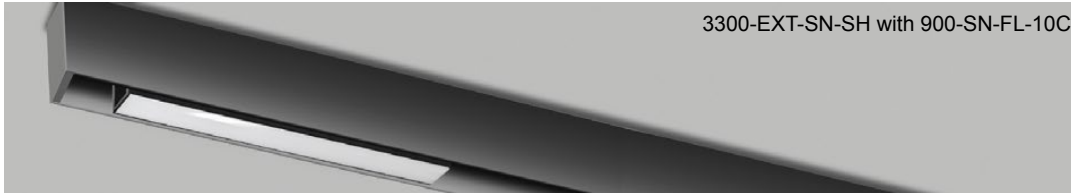

RECESSED

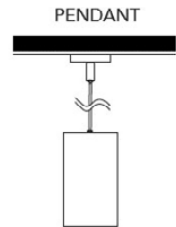

3300-EXT-SN-PH with 888-SN-10C

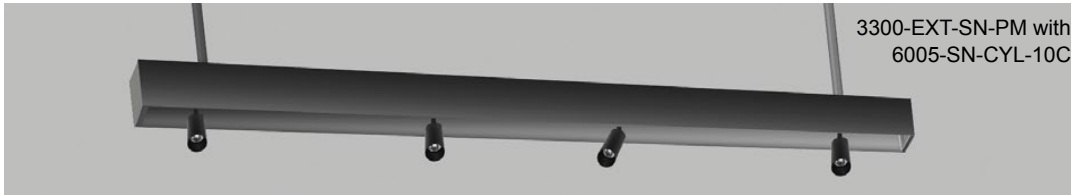

SURFACE

3300-EXT-SN-SH with 900-SN-FL-10C

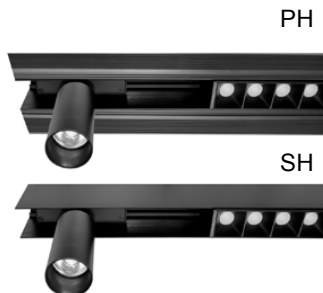

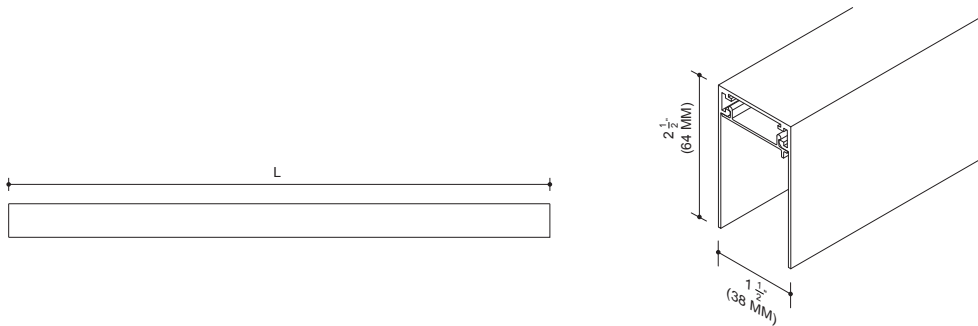

PENDANT

3300-EXT-SN-PM with 6005-SN-CYL-10C

SNAP utilizes a custom housing to electrify modules that Snap-in-Place. This SIP feature enables quick installs and fluid modular configuration. Unlimited options are possible with modular design.

# ESSENTIAL Lighting Accessible via Smartphone

Customizable limitless lighting patterns to fit the atmosphere and feel of any given space

Wireless Bluetooth 4.0 Mesh Technology network operates without the need for additional controllers or gateway units. The 200ft distance enables a wide range of lighting arrangements while the exclusive Casambi-Bluetooth connection prevents the lighting system from interfering with other Blue tooth networks
